DISABILITY TRAINING SERIES AND COMPLEMENTARY GUIDEBOOK

EVERYTHING YOU WANT TO KNOW

START HERE TODAY : bit.ly/paftraining

Navigating Social Security Disability can feel overwhelming. Let us help you make sense of it!

Since our inception over 25 years ago, Patient Advocate Foundation has assisted patients with accessing Social Security disability benefits, the application process, and appeals if there is a denial of benefits.

Our 7-part series is ideal for clinical support staff, financial navigators, case managers, advocates, patients, and others interested in learning more about the disability process.

This disability training provides a step-by-step walkthrough to help you understand what a disability is, what types of disability coverage is available, submitting a strong application for disability, what to expect after the application and approval process, appealing a disability denial, and more. This free 7-module training series should take a little over 1 hour to view.

To complement the training series, PAF created an extensive disability guidebook. We address many of the same topics in this guidebook and hope it can act as a quick reference for questions. Please click here to learn more: patientadvocate.org/education
